

Why don't you take a papery swagger with me, and I can tell you all about it.

Um. Ok.

Hey there, papery friend, you look like your soulbox is in need of mint.

Why, yes indeed I am! Just what is Papermint?

What in the name of two dimensions are you talking about?

Ah, so you're new to Papermint.

So, first you need to understand Papermint is an online society where casual gaming and social networking meet.

It's a global community of creative spirits focusing on cooperation, communication, imagination and self-expression, where people all look after the world together.

Oh, I see.

That sounds brilliant, I'm never leaving!

Wait! Don't you want to hear about all the things you can do?

No, I already like it.

So you don't want to hear about all the things you can make, or about how you can turn yourself into a paper boat, or a paper plane, or into a paper ball, or... about all the ways you can talk and communicate with people, or...

...or about all the mini games you can play, and about all the people you will meet?

or about all the different worlds you can visit, or about what you can do with the houses you can own, or about how to garden, or...

No thanks...

...I'm going to learn a new dance!
